

# Overview

---

## Gimli High School Enviro Club:

*Our purpose is to learn about and appreciate the environment and our place in it, and to improve our community in small and big ways.*

We want our community to be a healthy,  
positive, sustainable place to live.

---

We want a sustainable world, and that starts closest to home – in our homes, our school, our towns and outward.

We are the community!

# Our community supports us in many ways.

---

- Our main stakeholders
- Contribute money and materials to our club and its activities
- Support us by attending Enviro Club events and donating money to our fundraisers
- Making positive choices *i.e. Lake Friendly products, Yellow Fish Road, composting*

# Social Aspects

---

We believe in sharing our learning with others and have developed partnerships to do so.

# Social Aspects

---

We are concerned with the world beyond our community, too.

# Environmental Aspects

---

We are involved in improving our community at the environment level.

# Economic Aspects

---

- Education prepares us for jobs.
- Knowledge and skills gained prepares us for future careers and jobs.
- Our community is dependent on Lake Winnipeg in many economic ways.

# Cultural Aspects

---

We look beyond our community  
to understand our environment.

# Cultural Aspects

---

Our school community embraces diversity in many ways.

# Equity

---

We are actively involved as a school community in social justice issues.

# Impacting Public Policy

---

Student voice is an important part of action in our community.
