"Mentoring Works!"
A Strategy to Help Youth Succeed in Life

Conference preamble:

As a strategy for helping young people succeed in life, mentoring works! It helps give young people the confidence, resources, and skills they need to reach their potential. But like any youth-development strategy, mentoring works best when measures are taken to ensure quality and effectiveness.

Come to the conference to learn about creating effective mentor-mentee relationships for our youth, across generations and across sectors.

- **What is mentoring?**
- **What makes a successful mentor-mentee experience?**
- **What do our youth in Central Region say?**
- **How to make the best mentor-mentee matches**
- **What are considerations and strategies to plan for a successful mentor-mentee experience?**
