Sexual Health Education: Sexual Health 101

May 9 2011

An introduction to education and sexual health best practice in the workplace

.Program Details.

In this workshop we will go over 3 of the modules from our 2 day
Sexual Health Assessment Training:

Section Four – Sex Positivity
Section Five – Harm Reduction
Section Six – Sexual Health 101

Participants will walk away having covered the following 9 objectives:

1. To learn how harm reduction applies to varied forms of relationships and sex.
2. An understanding of levels and different types of risk
3. Introducing non-judgmental risk communication strategies
4. Understanding and incorporating the principals of harm reduction.
5. Learning and identifying safer sex and drug use strategies and tools.
6. Integrating education and prevention concepts into your work and service delivery.
7. Increased knowledge of STI and BBP's.
8. Building capacity and expanding knowledge regarding the treatment and management of both reportable and non-reportable STI's.
9. Understanding the reporting and contact notification processes.
